

e are Warriors of a just and honest cause. We stand shoulder to shoulder, to defend our access to historical riding areas against the many who would steal it away.

For generations we have enjoyed and respected the places we have access to ride. We take pride in being good stewards of the land. There are those who misinterpret us and our sport. They are working tirelessly to defeat us and to diminish the sport of snowmobiling.

For too long, many of us have sat idly by while they were at work.

NOT ANYMORE.

The Sled Warriors will rally and defeat them. We will defend our access and our sport and our good names. We did not seek out this fight but it has come and we will not shy from it!

We are Sled Warriors and we will protect our glorious sport for ourselves, our friends, our families, and our future generations.

e are Warriors of a just and honest cause. We stand shoulder to shoulder, to defend our access to public lands against the many who would steal it away.
