

ADVOCATES FOR MULTI-USE OF PUBLIC LANDS

Who are the Advocates for Multi-Use of Public Lands?

We are an organization dedicated to the preservation of public lands and national forests for the benefit of and the multi-recreational use by the broad population of our regional communities. Our focus includes the organization of public support and the creation of a unified voice to maintain and protect broad access to our public lands for motorized as well as non-motorized recreational uses in a cooperative and cohabitant manner for all to enjoy the natural beauty and public opportunities in our region. Our near term efforts will focus on Caribou Targhee and Bridger Teton National Forest areas.

What can you do to help our cause?

1. **Submit a public comment.** Please use the other side of this form to write a personal public comment in support of access to public lands for multi-use recreation.
2. **Go to AMPL.Community** to learn about our cause and submit a public comment that goes to 17 different delegates.
3. **Attend a WPLI meeting and learn what's at stake.** Go to <http://tetonwpli.org> to learn more.
4. **Volunteer and get involved.** AMPL needs volunteers to man booths at events, recruit friends and neighbors to fill out public comment cards or submit a comment online, provide photos and stories that highlight why outdoor recreation is important to you, and share content on social media so locals become more aware of the WPLI process and what it can mean to the future of recreation in our region.

Name: _____ Date: _____

Street Address: _____

City: _____ State: _____ Zip: _____

Email Address: _____

Areas you use (Circle all that apply):

- Bridger Teton National Forest
- Caribou Targhee National Forest
- Shoshone National Forest

Please list approx. # of days per year you access these areas: _____

- Snowmobile
- Mountain Bike
- Ski/Snowboard
- Heli-Ski
- Dirt Bike
- Hunting
- Hiking
- Other: _____
- Firewood
- 4 Wheeler/Side-by-side

Dear State Commissioners and Public Land Authorities:

Statement of support:

I support responsible mechanized and motorized recreation on the Caribou Targhee, Bridger Teton and Shoshone National Forests. I do not support any reduction in areas that any of the above recreational activities are currently allowed or a reduction in the time of year in which these activities are currently allowed to occur.
